

A Shoe Drive Results in Some Very Exciting Math!

Shoes 4 Hope is an initiative of Harvesters International Ministries that transforms used shoes into hope and practical help for those that need it most. From providing housing and clean water to healthy food and medical care, Harvesters International works alongside its partners to share the love of Christ in practical ways.

Feed Homeless Children, D.R. Congo

One pair of gently used shoes plus a quarter equals a meal for a homeless child! This meal is provided along with a message of love and hope from God's Word. Your donation also supports a pastor for the feeding site. Not only does the pastor teach the children, but gets to know them and the circumstances they are facing so that Harvesters International can best meet their needs.

Provide Education, East Africa

Lack of school fees prevents countless children from attending school. Just 75 pairs of shoes plus a quarter per pair equals a three-month session of primary school for an orphan, including the required school fees, supplies, and uniform. A full year of primary school is covered with 225 pairs of shoes and quarters.

Here's How It Works...

Hosting a shoe drive is easy! Shoes 4 Hope provides the collection boxes, storage bags, and promotional materials needed for a successful drive. We will coordinate with your group to arrange pick up of the shoes you gather.
